

Nikola Cvetić

ASISTENT U VELEPRODAJI

To: Maja Nedučić, Vega IT

Good day,

My name is Nikola Cvetić. I am an IT enthusiast. I adore programming, Internet, and the JavaScript most of all.

It is one the prettiest thing that happened to me.

I have always been a digital products lover.

I am writing to you to express my great interest in the "Frontend developer" internship in your company. I was approached to it because of the demanded stack itself, HTML, CSS, Scss, JavaScript, JQuery, React. It corresponds totally to my work direction, currently and in the future.

I want to work as hard as possible, but with my feet on the ground, to listen to more experienced colleagues. and to help others to overcome difficulties.

I must tell that I admire your company for such a wide fields of works. And it is internationally spread.

I find very interesting that you work in industries from marketing to energy industry. That tells about the stability of the company.

The atmosphere that could be felt from the site is beautiful. Smile everywhere. That is my attitude in all the situations. People relations matters the most for a nice team and productive work. Nice team buildings - billiard and skating - I am a big fan.

A wonderful surrounding to work a with things that I adore and to develop myself as a person. And you have a beautiful approach description on the Twitter: "We are an open-minded company".

And I adore Novi Sad, I would like to live there permanently.

Thank you

I hope that you will consider a possibility to give me a chance to be a part of your company, so together we could make the best sites and apps, that are open-minded..

February 22. 2021.
